

Amazon Web Services provides startups with low cost, easy to use infrastructure needed to scale and grow any size business. [AWS Activate](#) is a program with resources designed to help startups get started on AWS. Join some of the fastest-growing startups in the world and build your business using AWS.

Instructions:

Visit the AWS Activate webpage <https://console.aws.amazon.com/activate/home/#/apply/portfolio> to apply.

1. Use this Organization ID (case-sensitive) on your application form: **1gGdB**
(Note: This is not a promotional code that can be used in your Billing Console)
2. Provide your AWS Account ID on the application. AWS Activate Credits will be added directly to this account, so please double check it - we cannot transfer credits in the future.
3. Please provide your startup company name and email address associated with your AWS Account ID.

To see your credit balance, applicable services, and expiration date, please go to your [Billing and Cost Management Console](#).

You will be eligible for:

1. \$5,000 in AWS Activate Credits valid for 2 years
2. 1 year of AWS Business Support (up to \$1,500).
3. 80 credits for self-paced labs

AWS Activate Credits expiration dates are based on the date credits were issued into your AWS Account after application approval.

Please refer to the AWS Activate [FAQ](#) for more information.

Other Notes:

If you have previously received AWS credits, you might be topped up to highest eligible package (say if you have received \$2,000 in AWS Cloud Credits through Activate in the past, you will get the remaining \$3,000).

Applications take around 2 weeks to be processed. Please reach to me if it is taking longer.
